

**Ece ATEŞ**

***Undergraduate Student at Faculty of Health Sciences, Child Development Department İstanbul Kent University***

I'm Ece Ateş; I was born in 1999 in Fatsa which is located in Ordu. I completed my primary education at Toki secondary school. In my high school education, I graduated in 2017 by choosing the early childhood branch in the Fatsa Vocational and Technical Anatolian High School child development department. In 2018, I won İstanbul Kent University Child Development Department with a seventy-five percent scholarship. In 2019, I started to do a double major with the Department of Nutrition and Dietetics at İstanbul Kent University. Currently, I continue my education and training process. I am in the third grade in the child development department and I am in the second grade in the nutrition and dietetics department. I think both departments that I am studying at are very important. My future goal is to perform my profession in a way that will benefit society.
