

İnci Kıymet TEKİN

Undergraduate Student at Faculty of Health Sciences, Child Development Department İstanbul Kent University

I'm İnci Kıymet TEKİN. I was born at 15.12.1998 in Istanbul. I finished primary and secondary school in Atikali Primary School. I graduated from Istanbul Sultan Selim Vocational and Technical Anatolian High School Child Development and Education. I am a 4th-grade student at Child Development, Faculty of Health Sciences İstanbul Kent University.

I studied English up to C1 level in a private institution during my high school period, and then I received A1 Russian education and sign language training during my university education. I was interested in drama and theater during my secondary school and high school period. I tried to gain experience by doing internships in special education and rehabilitation institutions, kindergartens and volunteer works during high school and university periods and I continue to work. I try to improve myself in my field by attending summits, career days, seminars, and applied seminars. I am one of the students involved in the Tübitak Sobag Project, which started in the summer of 2020.
