I was born in Istanbul. I started Üsküdar University Faculty of Health Sciences Child Development Department in 2014 and Üsküdar University Faculty of Humanities and Social Sciences Department of Psychology as a full scholarship undergraduate student in 2015. I graduated from both of departments with high honors. Since 2019, I have been continuing my education in Marmara University pre-school teaching master's program and Istanbul Commerce University Family Counseling and Education (100% scholarship) master's programs. Also I completed the pedagogical formation program at Marmara University. I worked as an intern at institutions such as kindergarten, special education and rehabilitation center, guidance and research center, and I worked as an observer in laboratories and clinics. I worked voluntarily for various foundations. After I graduated university, I worked as a psychologist in a special education and rehabilitation center, and then worked as a research assistant in Istanbul Kent University Child Development Department.
